Colors and Specifications

● Kochs' Furniture and Fixtures are available in a wide range of colors and upholstering materials. When ordering give all necessary details; specify correct wood finish, color of enamel or lacquer and color of upholstering material. If color combinations are wanted, state main color and trim color. Compliance with this request will eliminate correspondence and facilitate prompt execution of your order.

LACQUER FINISHES

All wooden parts of Kochs' equipment may be had in the following solid colors or two-tone color combinations at the same price:

Old Ivory	Rust	Nile Green
Sea Green	Royal Blue	Desert Tan
Light Blue	White	Light Walnut
Black	Mahogany	Dark Walnut

MARLITE

An ideal substitute for expensive wood grains and marbles. Marlite is an excellent material to use on mirror cases and mirror tops. It has a hard synthetic glazed surface finished by an exclusive treatment which completely seals the pores so that moisture and dirt cannot penetrate, giving a stainproof, easy-to-clean surface. May be had in following finishes:

American Figured Walnut	Black and Gold Marble
Satinwood	Skyros Antique Marble
Italian Olivewood	Verdi Antique Marble
English Harewood	Rose de Brignoles Marble
French Walnut	Breche Rose Marble
Mahogany	Jaune Benou Marble

American Straight Grain Walnut

PORCELAIN ENAMEL

Barbers' and ladies' chairs, barbers' poles and lavatories are generally made of iron that has been porcelain enameled. This enamel coating is applied under intense heat and provides a protective glass finish covering that is durable and impervious to water. In this catalog, whenever items are described as porcelain enameled, they may be had, at no extra charge, in any of the following colors:

White	Old Ivory	Apple Green (Dark)
Black	Desert Tan	Nile Green (Light)

COLOR ILLUSTRATIONS

The colors are reproduced as near as it is possible to do. However, there are always slight variations in different lots of materials purchased at different times and, under these circumstances, we cannot guarantee a perfect match.

NOTE

Due to present unsettled conditions, we reserve the right to limit quantities, to discontinue articles and to make changes, without notice, in prices, specifications, and equipment, at any time, without incurring any obligation.

TAKOLOID

(Textile or Leatherette)

Is carried in stock in the following colors:

Russian Blue	Nile Green	Rust Colonial
Light Blue	Sea Green	Rose
Spanish Blue	Dark Green Spanish	Yellow
Dutch Blue	Turquoise Green	Salmon
Red	Light Green Spanish	Sand
Crushed Red	Brown Colonial	Black
Red Colonial	Autumn Brown	Antique Ivory
Maroon	Brown Spanish	Beige
Green Colonial	Antique Brown	Fawn
	Antique Cream	

GENUINE LEATHER

Is available in the following colors and grains:

Rust	Spanish Maroon	Maroon
Blue Veal	Antique White	Yellow
Green Morocco	Red	Blue Shark
Green Goat Grain	Brown Shark	Spanish Green
Spanish Brown	Black	Mahogany
	Brown Veal	

TOP GRAIN LEATHERS

(Aniline Dyed)

Is carried in stock in the following colors:

Black	Dark Blue	Brown
Green	Red	

TAKOLENE

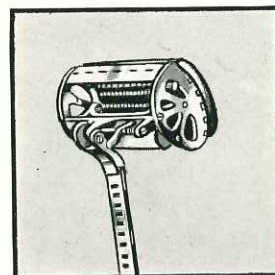

This material is used for bases and cabinet tops on some fixtures. It is made specially for us for that purpose; it is of dull black color and will not warp.

EXTRA CHARGES

EXTRA CHARGES: Chrome plated barber shop equipment is furnished exactly as described and is available in colors enumerated above. Special colors or finishes or coverings may be had, but these are subject to extra charges, which will gladly be quoted on request.

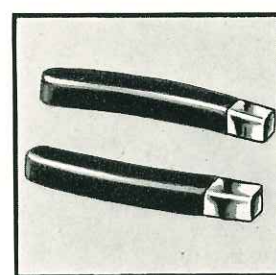

IMPORTANT FEATURES OF KOCHS'

Streamline Chrome Plated Barbers' Chairs

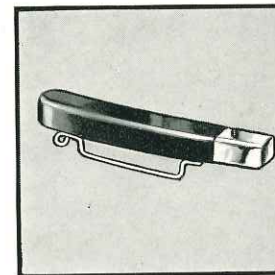

THE HEADREST

The same improved article that has been furnished with Kochs' Chairs for some time. A new larger, thicker and softer cushion covered with leather is now used. Headrest is fitted with bow shaped bridge and mounted to the slat by means of a recess block for easier shaving.

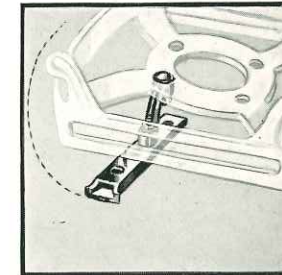

THE ARMS

Leather upholstered and fitted with chrome plated metal arm caps. Not cold and clammy like the old arms, jarring your customers' nerves, but warm and soft like the furniture in your home.

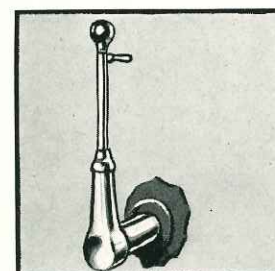

STANDARD EQUIPMENT

The right arm of each chair is fitted with strop ring and hair-cloth bar and manicure sockets. If hair cloth bars are wanted under each arm, they may be had if specially ordered. A small charge is made for the second bar.

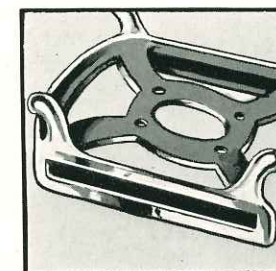

HEADREST HOLDER

Every Kochs' Barbers' Chair is now equipped with it. As shown in the illustration, the headrest holder is mounted under the seat rail and may be swung out of the way after the headrest is inserted. It is substantially constructed and chrome plated, and will prove a welcome feature.

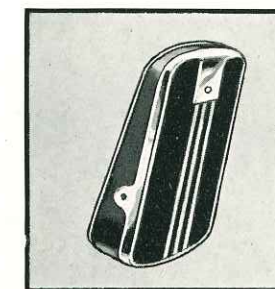

THE PUMP LEVER

Longer than on other chairs, thus raising the chair with less exertion. A new composition ball has replaced the old type iron handle. The "little (finger-tip control) trigger" still does all the work and does it automatically with the lever in any position.

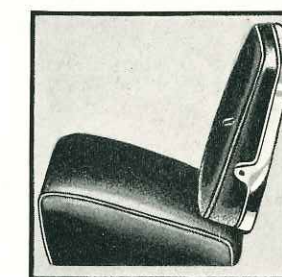

THE SEAT RAIL

Consists of concealed iron construction ornamented on the outside with an OVAL metal frame into which fits a colored steel plate to match the base. Its simplicity and beauty enhance the entire chair. Front and rear standing brackets are an integral part of the rail.

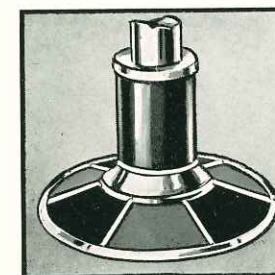

THE BACK

Entirely different from the old type chair. Note its shape, which fits the back perfectly and comfortably. Chrome plated metal frame and decorative steel strips enhance its beauty and appearance. Rear arm brackets are integral part of back-frame, no screws to work loose.

SEAT AND BACK

Note construction and position. Soft springs in seat and back insure perfect comfort to customer and yet, for the barber's convenience, the patron sits straight up. Note thickness of seat cushions in front.

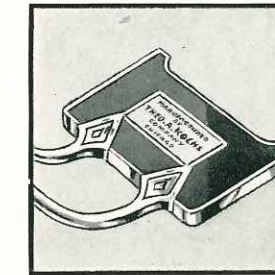

THE BASE

New and different, beautiful and modern, this new base sacrifices nothing of the strength of the old type, one-piece iron base and adds greatly to the general appearance of the entire chair.

THE FOOTREST

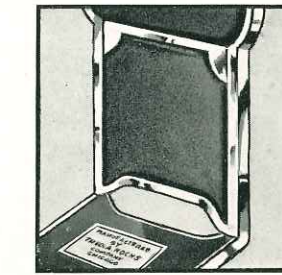

One side padded, other side covered with Linoleum. Fastened to brackets by means of tie rods which extend through the entire length of the footrest. A heel support which prevents the feet from slipping off has been added. No screws to work loose.

THE FOOTBOARD

It is full width and covered with linoleum. Footrest brackets are mounted flush—no high points on which the plating will wear first. It is massive and adds to the appearance of the chair.

NOTE—Two brackets are used for greater strength.

THE LEG REST

Full width, softly padded and covered with leather. Framed in bright chrome plated metal, beautifully designed and artistically decorated. The flat leather surface permits easy cleaning.

Kochs' Barbers' Chair

No. K-4639

EQUIPPED WITH
KOCHS'
"Hy-lo-draulic"
HIGH ENOUGH
LOW ENOUGH
TRADE MARK
MECHANISM

● Model K-4639 Chair is a number which will appeal particularly to the barber who prefers brilliant all-chrome equipment for his shop. It is the same chair as model K-2539 described on page 6, except that all exposed metal parts, including the base, housing, back-frame and entire seat frame, are chromium plated. The only color in the chair is in the leather upholstery, which is available in a wide choice of colors and grains. The panel in the

seat frame, however, may be porcelain enameled, if desired. All leather colors and grains, as well as standard enamel colors, are listed on page 2. Manicure Sockets, Strop Ring, Towel Bar and Headrest Holder are standard equipment. Entirely chromium plated barbers' chairs are becoming increasingly popular, and this chair combines modern styling, supreme comfort, and the finest construction with the gleam of bright chromium plating.

Foam Rubber Cushions

THE LATEST MATERIAL FOR REAL COMFORTABLE SEATS AND BACKS ON BARBERS' CHAIRS

This is being used on planes, streamline trains, autos, buses and also furniture, where the best is desired.

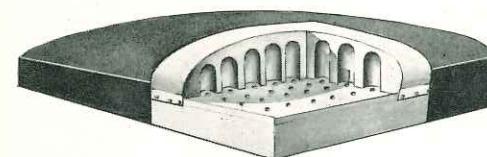

It is pure odorless latex whipped into creamy foam, then moulded into shape. Millions of connecting pores breathe in air each time the cushion is compressed.

DURABILITY — This material has been tested and has served successfully over thousands of miles in use in buses, planes, trains and autos.

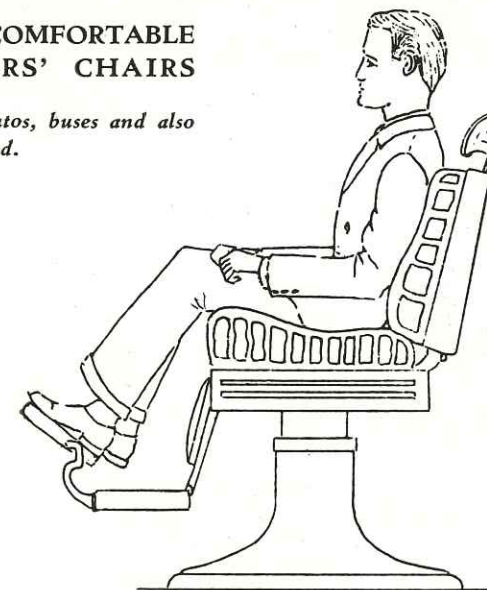

PERMANENT — Foam rubber cushions do not sag or pack down. Temperature and humidity do not affect them.

CLEAN — Foam rubber cushions are clean because no moth, germ or vermin can live in them.

● Attractive and up-to-the-minute in every detail, this new model K-2539 Chair incorporating the finest construction features is ideal for the barber who prefers a chair with a one-piece base. With the exception of the porcelain enameled iron base, this chair is the same as K-4639 described in detail on page 4. Equipped with the famous "Hy-lo-draulic" mechanism with new pump lever and ball handle, the chair has a raising range of 8½ inches. A "little trigger" finger-tip control permits easy reclining of the chair with the lever in any position. Other

noteworthy features are the comfortably shaped seat and back, the adjustable spring cushion headrest, the wide fully-upholstered apron, and the well-padded arms with chromium plated metal hand holds. Manicure Sockets — Strop Ring — Towel Bar and Headrest Holder are standard equipment. Except for the base which is porcelain enameled in any of several attractive colors listed on page 2, all exposed metal parts on the chair are heavily chromium plated. The genuine leather upholstery is available in a wide choice of colors and grains, also listed on page 2.

Equipped with Hydraulic Lift
which raises chair 8½ inches.

● Many of the leading hotels, the largest office buildings and the finest barber shops of the country are equipped with this model. Massive, though artistic; roomy, yet graceful; it embodies every late improvement in barbers' chair construction. Made of iron, porcelain-enameled in any of the colors mentioned on page 2. Equipped with Kochs' patented telescoping housing which completely envelops the hydraulic mechanism and is chrome plated finish. Back-frame, arms and lever handle are porcelain-enameled. Ideal manicure sockets, hair-cloth bar and strop ring attached to arms. Porcelain-enameled apron.

The floor-rim, step and foot-rest are cast in solid German silver; all other metal trimmings heavily chromium plated. Kochs' patented adjustable spring-cushion headrest. Upholstered in the best possible manner with double-stitched edges and covered with finest quality leather of any color. Manicure Sockets — Strop Ring — Towel Bar and Headrest Holder are standard equipment. Equipped with Hydraulic Lift which raises chair 8½ inches. The sleeve which covers the mechanism is chromium plated. Picture shows it in Enamel finish.

PATENT OFFICE
 MAY 22 1941

Kochs' Sterilunit Mirror Case No. K-2648

One of the most progressive steps in modern mirror case construction ever taken. Into this ultra modern fixture Kochs has put the latest in scientific equipment for the maintenance of sanitary service in the barber shop.

Each barber is provided with a sterile storage cabinet large enough to accommodate all tools, towels and accessories. This cabinet is equipped with Westinghouse Sterilamp* which keeps the atmosphere in the cabinet sterile. (See page 52.) The Westinghouse Sterilamp is a new development in the electrical field and is used in hospital operating rooms, meat packing plants, bakeries and other places where absolute cleanliness must be maintained. The ray from the Sterilamp

destroys bacteria wherever it comes in contact with these micro-organisms.

The cabinets on this case are of figured gumwood with smooth rounded corners and Formica tops. Immediately above these cabinets there is a colorful translucent section with lights behind. The mitre cut mirrors on this fixture are of plate glass, measure 38 by 53 inches and are held in place by decorative chrome finished clips. Each section of case is equipped with a duplex electric outlet. Wainscot is of Marlite which may be had in any of the standard colors listed on page 2.

DIMENSIONS—Height over all, 7 feet 8 inches. Depth of fixture, 14 inches. Length, two-chair case, 10 feet 6 inches; three-chair case, 15 feet. Each additional section, length, 4 feet 6 inches.

*Trademark Reg. U. S. Patent Office.

Kochs' Mirror Case No. K-2641

One of the most impressive mirror cases ever designed. Stately and modern in its appearance, substantially constructed throughout and very practical in its many features, this distinctive wall fixture will grace even the finest barber shop. Its beautiful Breche Rose Marlite wainscot, large upright mirrors separated by smaller rose-colored mirrors and modern tubular lights immediately distinguish this superb case from ordinary fixtures.

CABINETS—Designed for the maximum convenience, incorporating the most advanced features. Made of highly polished mahogany-finished hard wood and recessed flush with the wainscot to save floor space. Contain a sterilizing compartment, spaces for clean and soiled towels, and a drawer for tools and accessories. Open compartment for stand bottles above cabinets, 12 inches high, 18 inches wide, 12 inches deep. Bright chromium plated modern hardware. Soiled towel compartment provided with a metal receptacle. Black Takolene cabinet tops and 6 inch base board. Cabinets are 39 inches high, 19 inches wide, and 12 inches deep.

LIGHT FIXTURES—Specially designed for this case. Modern frosted lumaline lights, 18 inches long with 1 inch diameter, horizontally mounted

on bright chromium plated metal reflectors above the small mirrors. **MIRRORS**—Are polished plate glass and are set flush with wainscoting. Top corners rounded. 38 inches by 50 inches. Two vertical mitre lines with bright chromium plated ornamental metal clips at top.

Smaller rose-colored mirrors directly over each cabinet add distinction to the general appearance of the case, and are attractively decorated with satin-finished chromium plated horizontal metal strips.

ELECTRICAL EQUIPMENT—Each section is fitted with a duplex electric outlet, complete with box, mounted into the wainscot, as shown. **COLORS**—Cabinets may be had in a choice of many natural finishes, solid colors, or color combinations. Various colors of Marlite are also available. See page 2 for complete listing of all standard colors. Special colors or finishes may also be had, but these are subject to extra charges which will be quoted on request.

DIMENSIONS—Height over all, 7 feet 8 inches. Depth of fixture, 15 inches. Length, three-chair case, 16 feet 0 inches; two-chair case, 11 feet 3 inches. Each additional section, 4 feet 9 inches.

Mirror Case No. K-2625

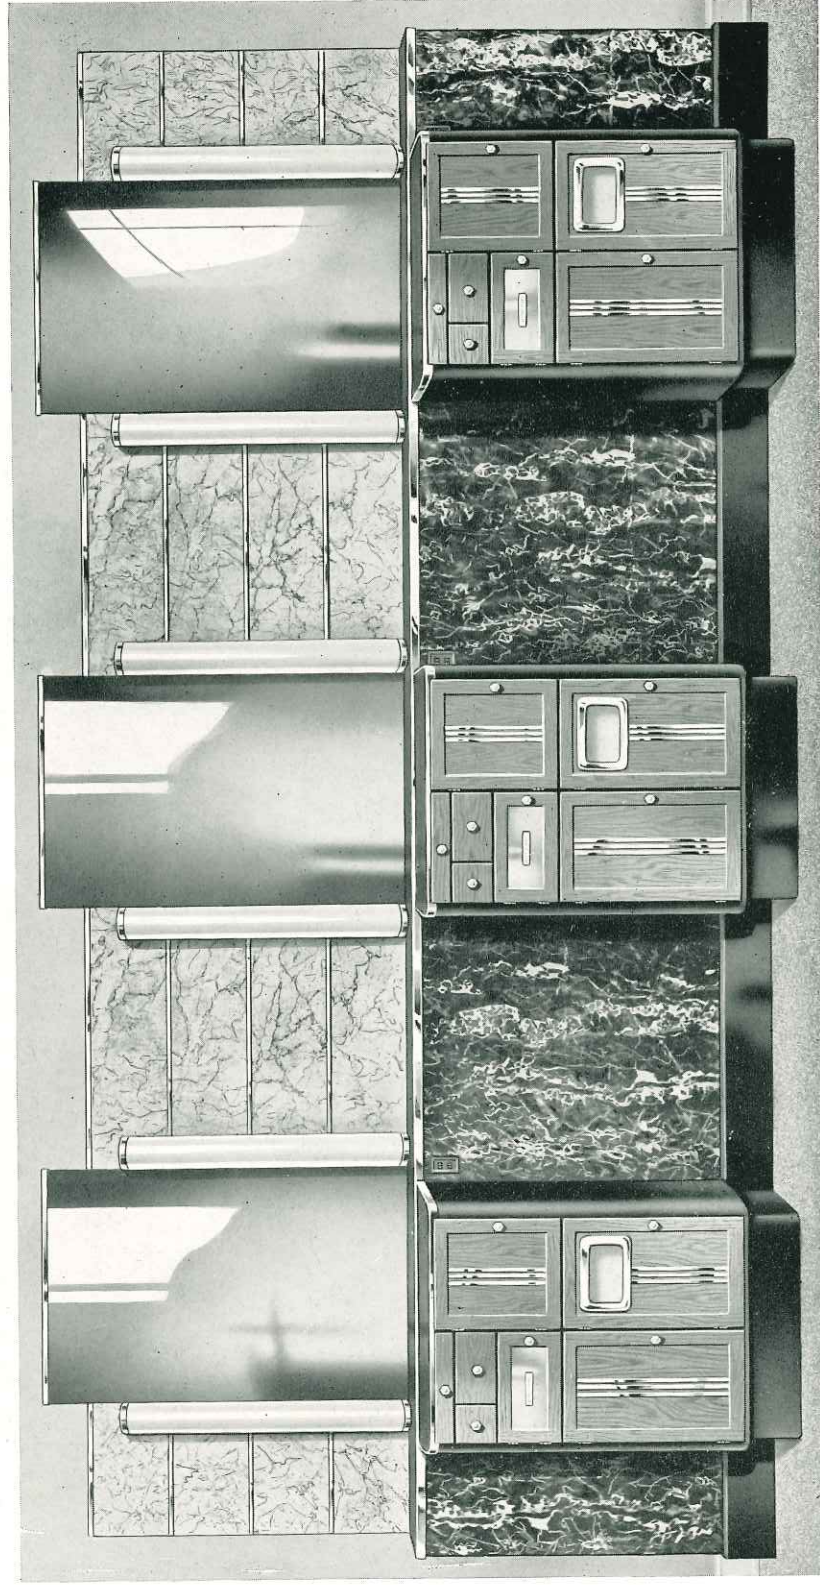

● An imposing fixture for barbers who prefer large mirrors. Strictly modern in design and reasonable in price. Wainscot of black and gold Marlite. Cabinets made of Maple in natural finish; they contain space for tools, bottles, clean and soiled towels. Soiled towel compartment fitted with metal receptacle.

Large plate glass mirrors, 38 x 50 inches, trimmed on top with chrome plated metal moldings of modern design. Small plate glass mirrors, 13½ x 52 inches, fitted with individual tubular light fixtures. Rose colored

mirror wings on each side of small mirror. Each section is equipped with double electric outlets.

DIMENSIONS—Height over all, 7 feet 5 inches. Depth over all, 15 inches. Length, two-chair case, 11 feet 4 inches; three-chair case, 16 feet, 1½ inches. Length, each additional section, 4 feet 9½ inches.

NOTE—All of Kochs' Mirror Cases, no matter of what material they are made, are constructed in sections, so that, as the business of the shop increases, sections may be added to the fixture.

Kochs' Mirror Case No. K-2627

● Distinctive and ultra-modern styling. Wainscot of black and gold Marlite; top of Rose de Brignoles Marlite, attractively decorated with horizontal satin-finished chromium plated metal strips. A black Formica shelf, 6 inches deep, runs the entire length of the case.

CABINETS—Highly practical in design, embodying all that is necessary and desirable. Made of natural-finished Maple and mounted on recessed bases. Contain spaces for clean and soiled towels, bottles, tools and accessories, and a sterilizing compartment. Generously ornamented with bright chromium plated metal trim and modern hardware. Soiled towel opening protected by a chromium plated metal rim, and compartment provided with a metal receptacle. Black Formica cabinet tops and wainscot bases. Cabinets are 42 inches high, 28 inches wide, 12 inches deep.

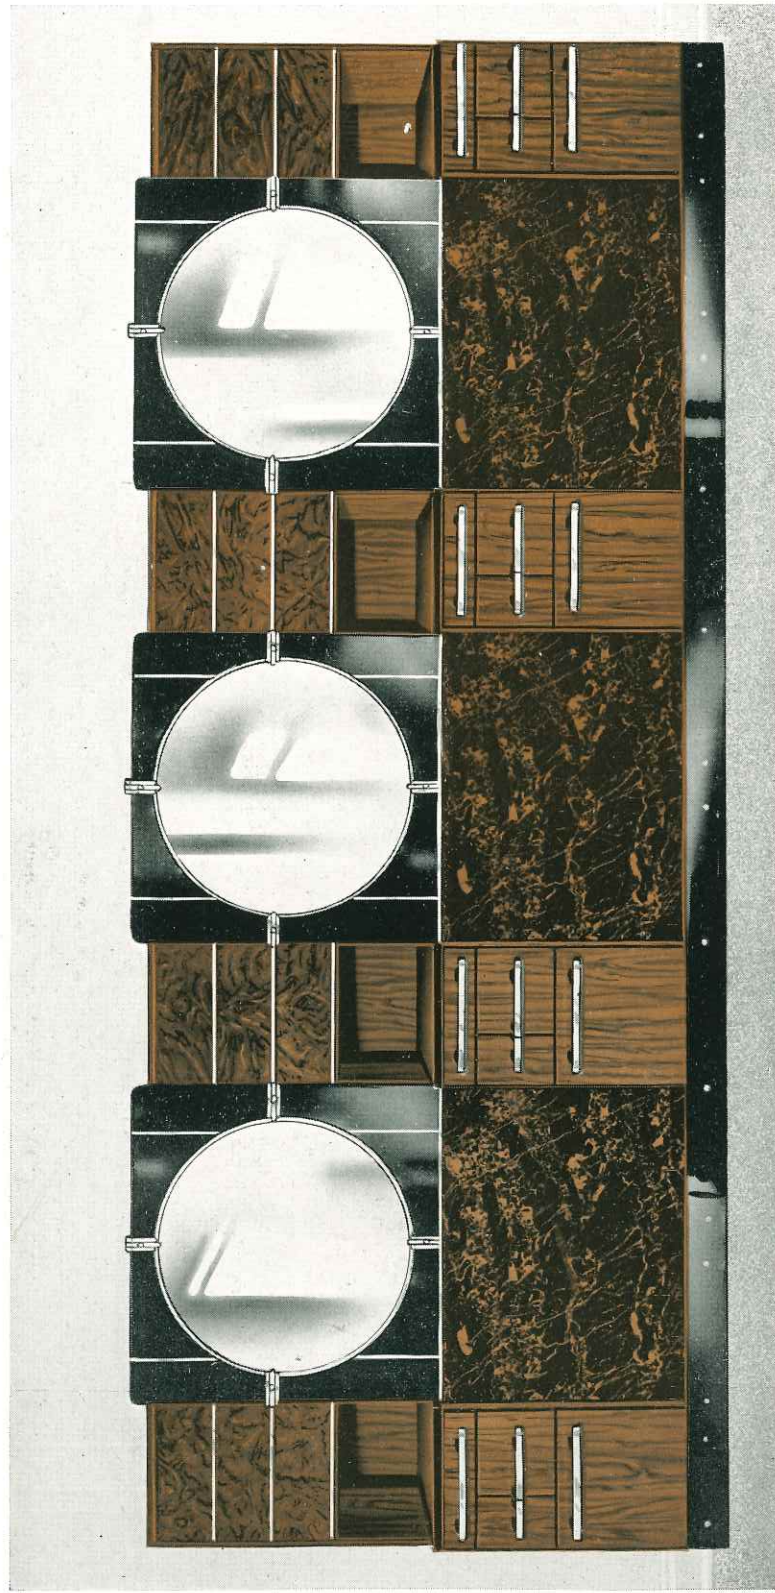

MIRRORS—Are plate glass 28 inches by 46 inches.

LIGHT FIXTURES—Specially designed for this case. Modern lumaline lights encased in opal glass, 38 inches high with 4 inch diameter.

ELECTRICAL EQUIPMENT—Each section is regularly fitted with a duplex electric outlet, complete with box, mounted into the wainscot, as shown.

COLORS—Cabinets may be had in a choice of many natural finishes, solid colors, or color combinations. Various colors of Marlite are also available. See page 2. Special colors or finishes may be had, but these are subject to extra charges, quoted on request.

DIMENSIONS—Height over all, 7 feet 5 inches. Depth of fixture, 22 inches. Length, three-chair case, 15 feet 2 inches; two-chair case, 10 feet 2 inches. Each additional section, length, 5 feet 0 inches.

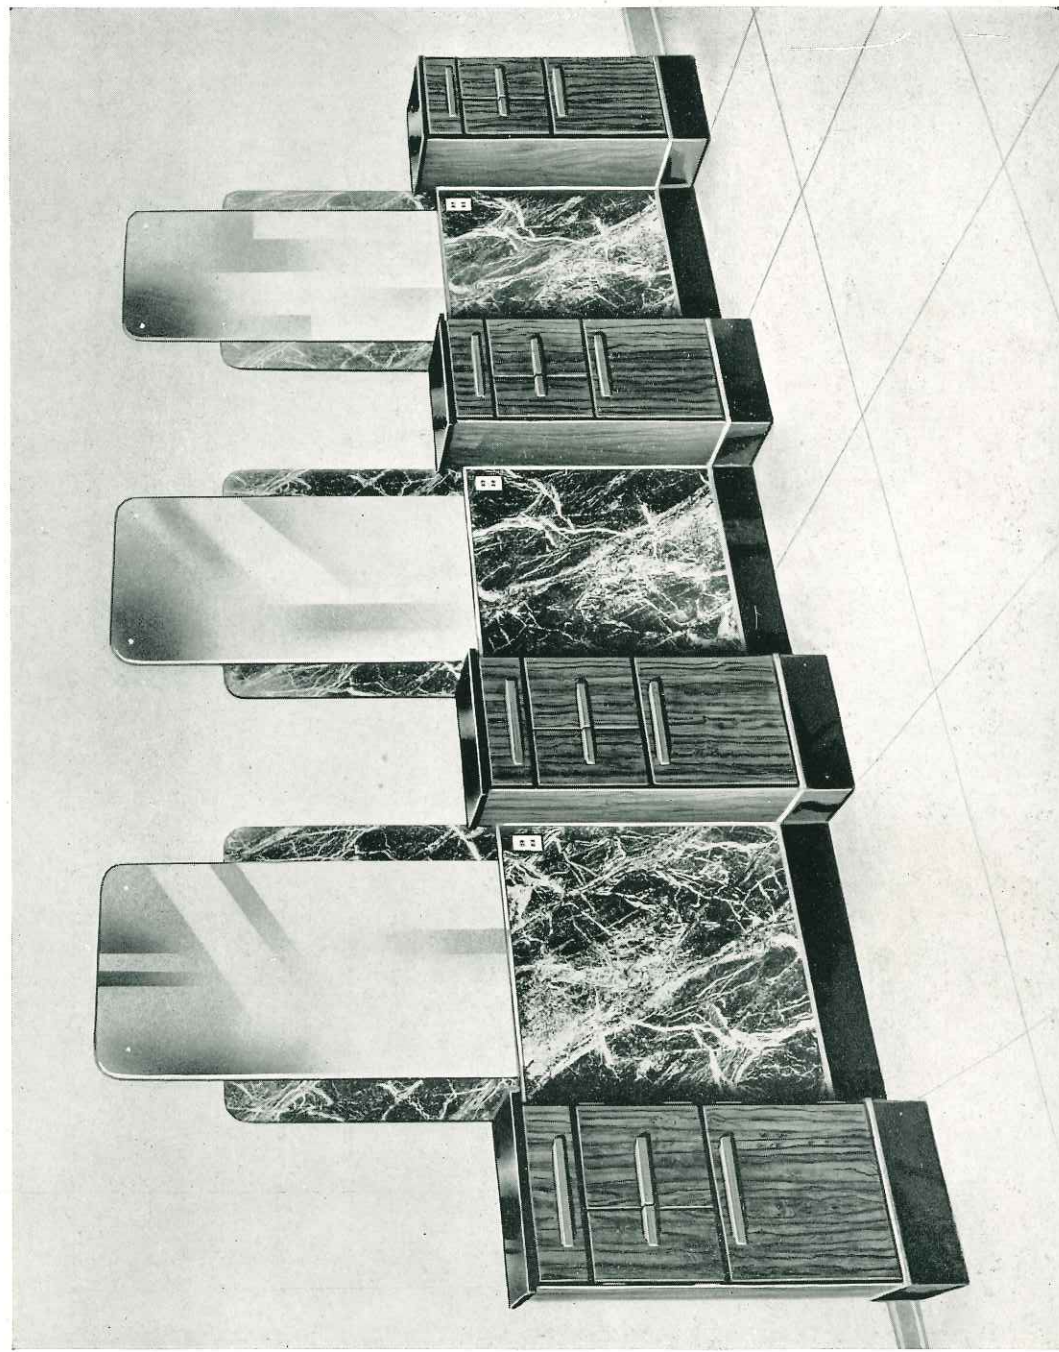

Kochs' Mirror Case No. K-2661

● A De Luxe wall fixture designed for the best barber shops. Modern in every detail, practical and of the finest construction. The wainscot of the case is black and gold Marlite, above which there is mounted a circular plate glass mirror 34 inches in diameter on a highly polished Formica background attractively trimmed with chrome plated moulding. Mirror is held in place with decorative chrome plated clips. The cabinets are made of highly polished mahogany finished hardwood and contain a drawer,

steril storage compartment, clean and soiled towel compartments and an open section with Takolene shelf for tools, bottles, etc. Above these open compartments are Italian Olive Marlite panels, trimmed with chrome plated mouldings. Each section is equipped with a duplex electric outlet.

DIMENSIONS — Height over all, 6 feet 7 inches. Depth of fixture, 14 inches. Length, two-chair case, 11 feet 9 inches; three-chair case, 16 feet 9 inches. Each additional section, length 5 feet.

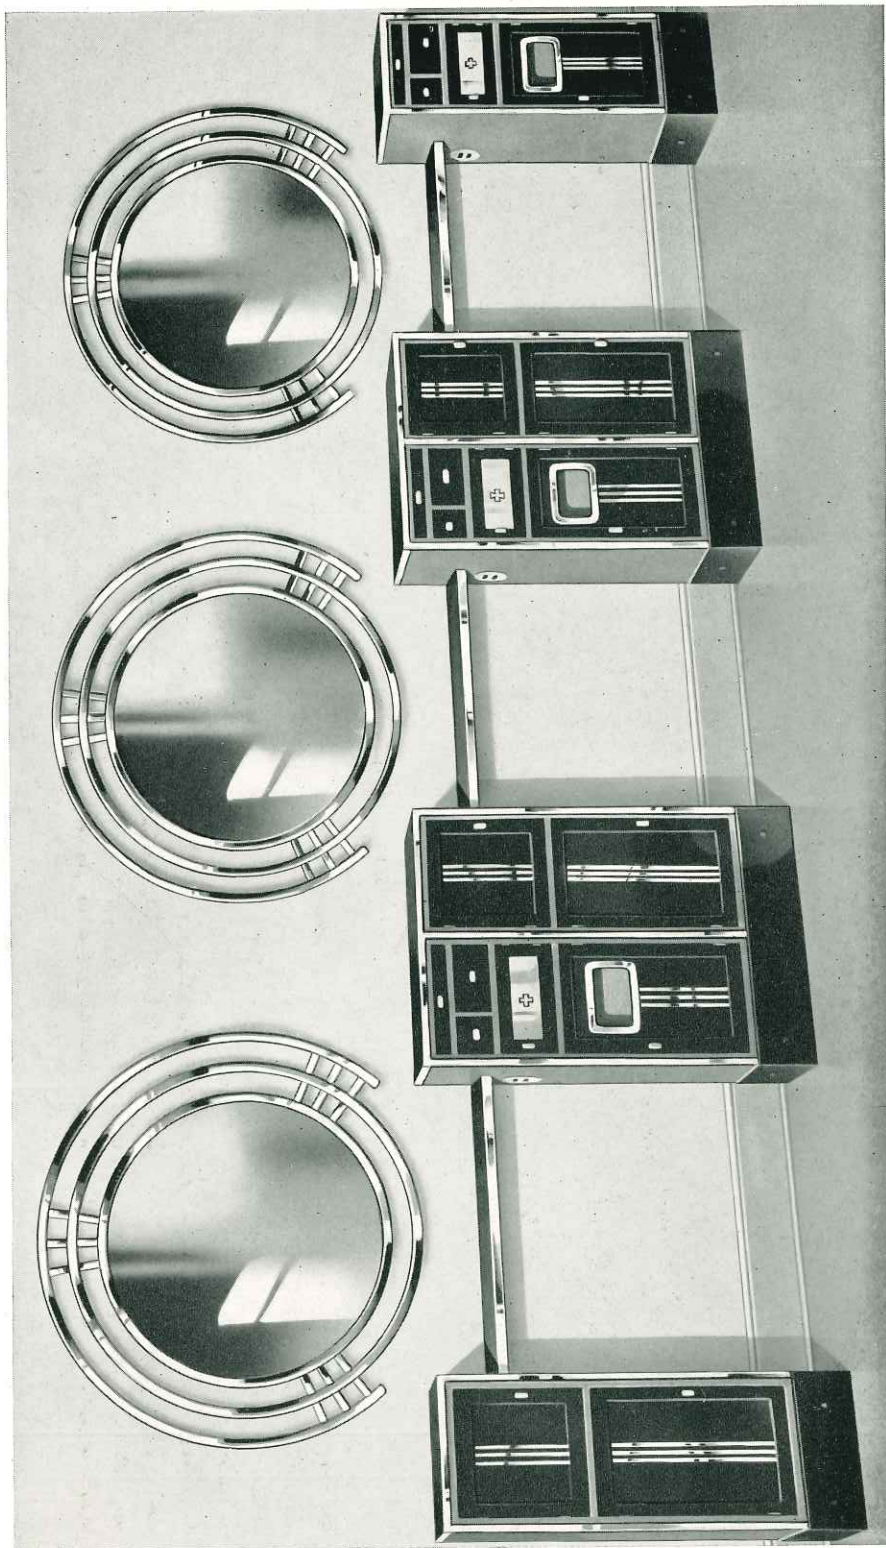

Kochs' Mirror Case No. K-2670

● An unusual fixture for the barber who wants something different and with whom price is an important consideration. Wainscoting and mirror wings made of Verdi Antique Marlite, with base of Takolene. Very practical cabinets with Takolene tops, made of fine cabinet wood and containing space for tools, bottles, clean and soiled towels, the latter compartment fitted with metal receptacle. Cabinets are made of maple natural finish. Each section is fitted with double electric outlets. Fine plate glass mirrors, size 26 by 40 inches.

DIMENSIONS — Height over all, 7 feet. Depth over all, 12½ inches. Length, two-chair case, 11 feet 4 inches; three-chair case, 16 feet 1½ inches. Length, each additional section, 4 feet 9½ inches.

NOTE — Every Kochs' Mirror Case having wall frames is furnished complete with the wall frames in sections. Every mirror case is completely fitted before shipment is made; all parts are plainly marked, ready for setting up.

Kochs' Chrome Plated Mirror Case No. K-2666

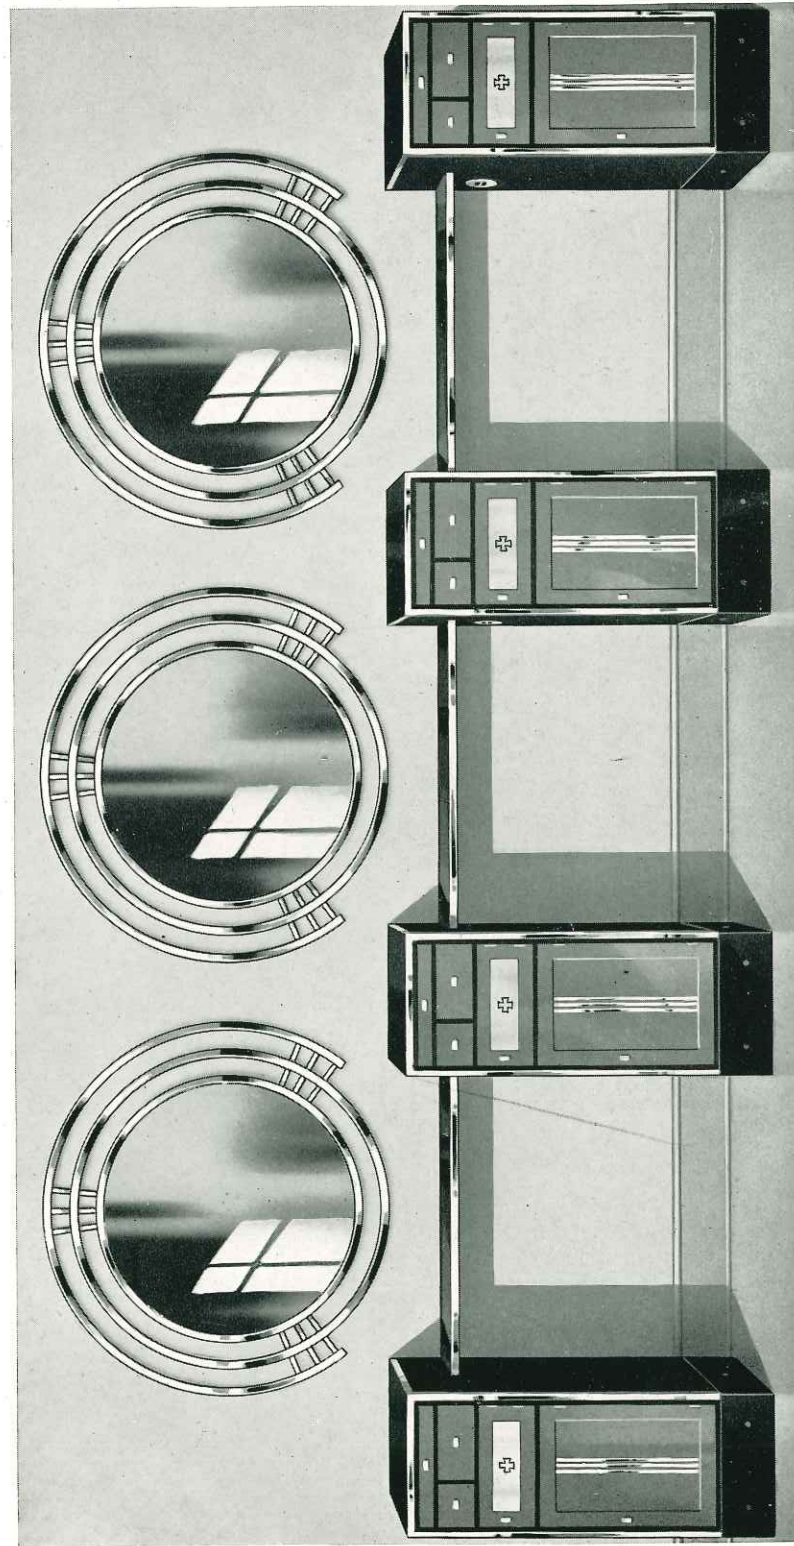

● Here is a modernistic mirror case that employs a different principle. It consists of separate cabinets and mirrors to be mounted directly to the wall and shelves to be fastened between the cabinets. As the illustration shows, each barber has the use of two cabinets, one for bottles and clean linen, and the other for tools, soiled towels and accessories, including a sterilizing compartment. The cabinets are made of fine wood, finished with black lacquer and generously decorated with chromium plated strips and edges. Other colors may be had.

The shelves are made of wood, covered with Takolene, banded with

chrome plated metal strip and measure 6 by 32 inches. Plate glass mirrors, 30 inches diameter, in unusual chrome plated steel frames. Each section is equipped with a duplex electric outlet, complete with box, mounted right into the cabinet as illustrated.

DIMENSIONS—Height over all, 6 feet 10 inches. Depth of fixture, 12½ inches. Length, two-chair case, 10 feet 1 inch; three-chair case, 15 feet 1 inch. Each additional section, length, 5 feet.

NOTE—This mirror case has all the practical features of much higher priced fixtures, but is low priced due to absence of wall frames, wainscot, and upper structure.

Kochs' Chrome Plated Mirror Case No. K-2673

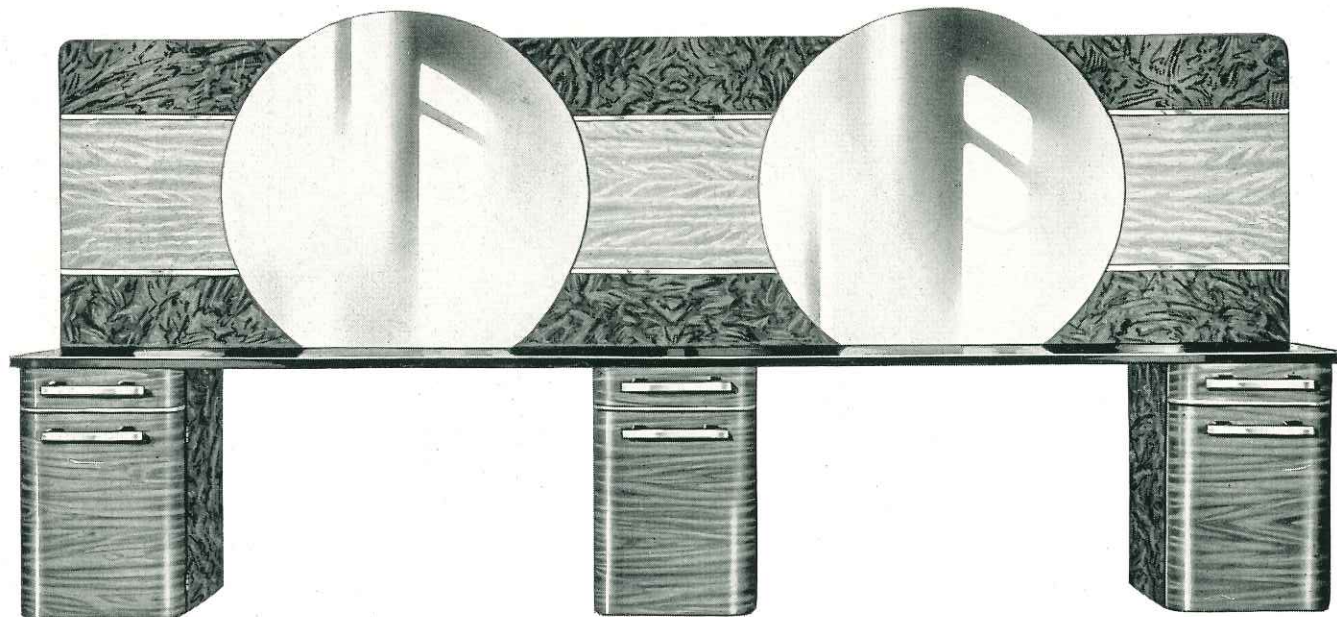

● This is an ideal fixture for the progressive barber who wants his shop right up to date, but with whom price is an important consideration. A low-priced model, yet decidedly beautiful and striking in appearance.

It consists of separate cabinets and mirrors to be mounted directly to the wall and shelves to be fastened between the cabinets. The cabinets are well constructed and finished with black lacquer or any of our regular colors of lacquer. The plate glass mirrors are 30 inches in diameter

and are mounted into chrome plated steel frames of unusual design. The shelves are made of wood, size 6 by 40 inches, covered with Takolene and banded with chrome plated metal strip. Each section is equipped with a duplex electric outlet, mounted right into the cabinet, as illustrated.

DIMENSIONS—Height over all, 6 feet 10 inches. Depth of fixture, 12½ inches. Length, two-chair case, 10 feet 3 inches; three-chair case, 14 feet 9 inches. Each additional section, 4 feet 6 inches.

Mirror Tops

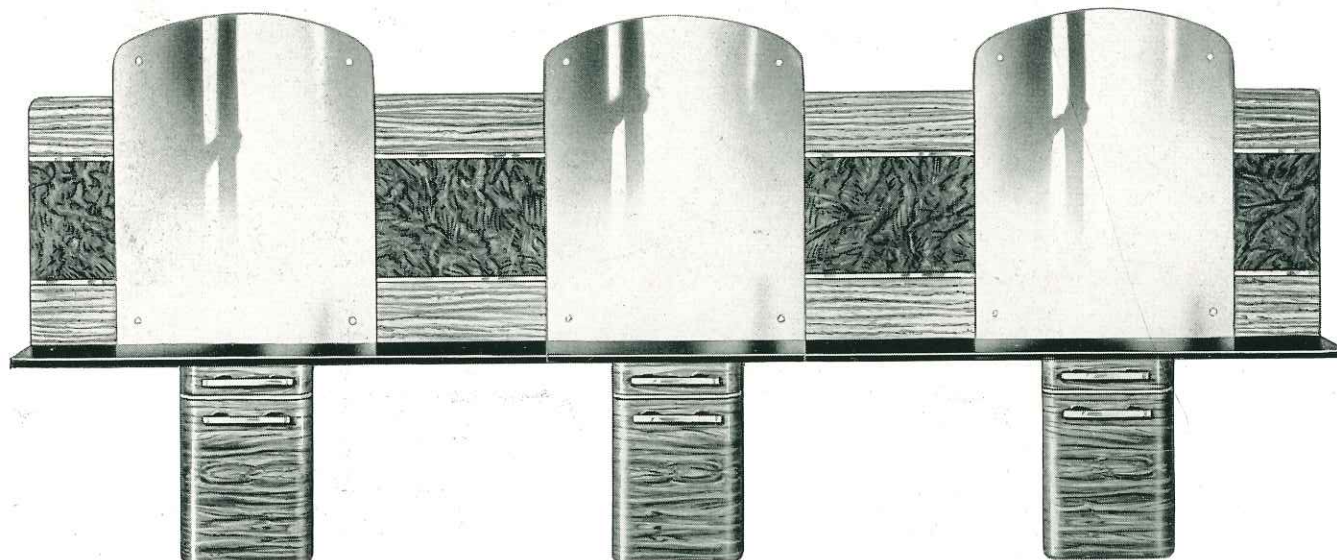

KOCHS' MIRROR TOP No. K-2674

● Very inexpensive fixtures well constructed and modern in every detail. Two tone Marlite facing of Italian Olive and Avodire with chrome plated trim strips. Full length Takolene shelf 13½ inches deep over all (usable surface about 10 inches). Plate glass mirrors 38 inches in diameter. Cabinets are of gumwood with figured front. They contain a drawer and a storage compartment. Front corners of cabinets are rounded and attractive modern hardware chrome plated is furnished for door

and drawer. These tops may be had with cabinets between mirrors as illustrated above or with cabinets under mirrors as shown below.

DIMENSIONS — Height over all with shelf at 40 inches from floor, 6 feet 3 inches. Depth over all, 13½ inches. Length, two-chair top, 10 feet 8 inches; three-chair top, 15 feet 4 inches. Each additional section, length, 4 feet 8 inches.

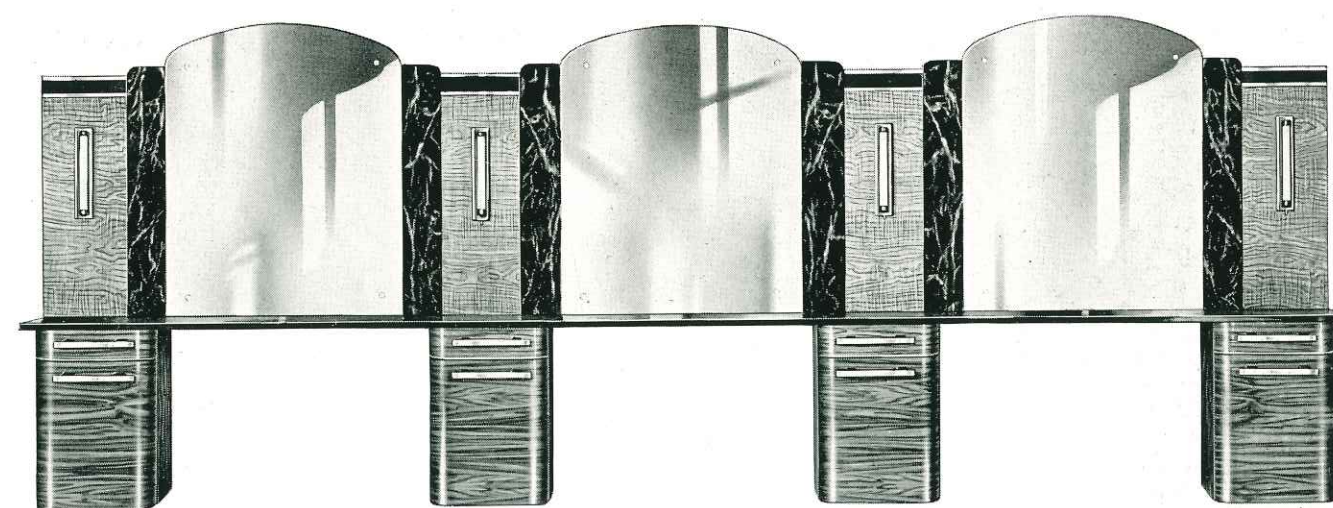

KOCHS' MIRROR TOP No. K-2675

● A colorful fixture of the same general design as the mirror top shown above but with plate glass mirror of different shape measuring 34 inches wide and 42 inches high. Full length Takolene shelf 13½ inches deep over all (usable surface about 10 inches). Cabinets are of gumwood with figured front. Cabinets are equipped with a drawer and a storage compartment. Front corners of cabinets are rounded providing a modern

streamlined design. Hardware is of best type, chrome plated. Panels are of Avodire and Italian Marlite.

DIMENSIONS — Height over all with shelf at 40 inches from floor, 6 feet 10 inches. Depth over all, 13½ inches. Length, two-chair top, 10 feet 8 inches; three-chair top, 15 feet 4 inches. Each additional section, length, 4 feet 8 inches.

Mirror Tops

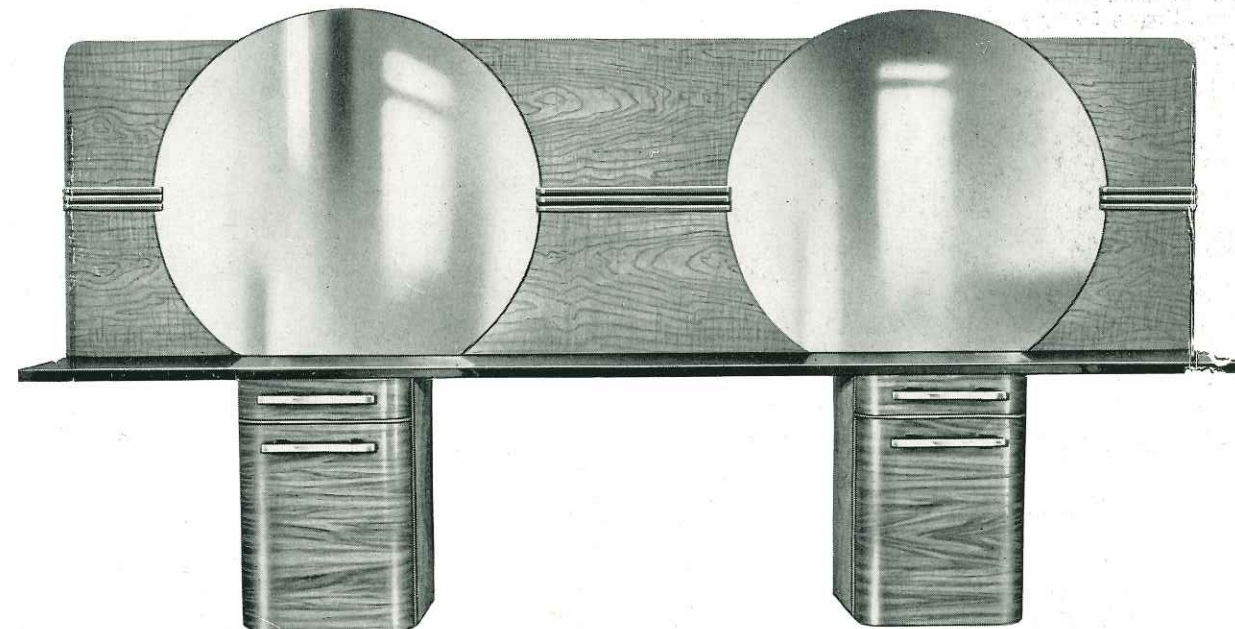

KOCHS' MIRROR TOP No. K-2676

● A de luxe type mirror top using two tones of Marlite Verdi Antique and Harewood arranged in a vertical design trimmed with a chrome plated cap and lumaline lights on chrome plated brackets. Takolene shelf 13½ inches deep. Plate glass mirrors 34 inches wide and 42 inches high. Cabinets are of gumwood with figured front and equipped with drawer and storage compartment and chrome plated modern hardware of

the best design. These tops may be had with cabinets between mirrors as illustrated above or under mirrors as shown below.

DIMENSIONS — Height over all with shelf at 40 inches from floor, 6 feet 10 inches. Depth over all, 13½ inches. Length, two-chair top, 10 feet 4¾ inches; three-chair top, 15 feet ¾ inch. Each additional section, length, 4 feet 8 inches.

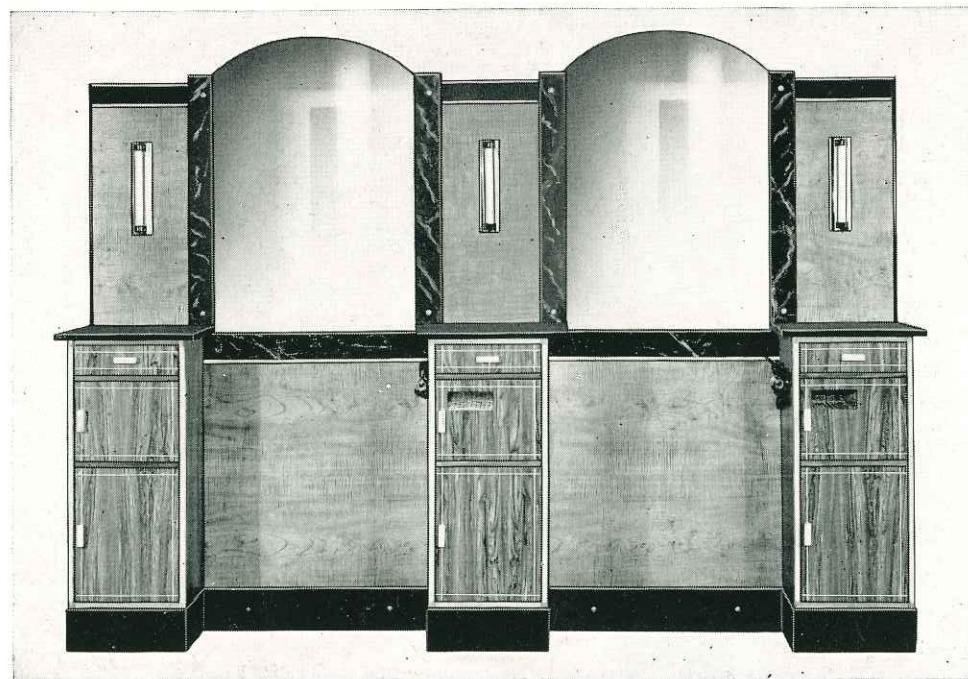

KOCHS' MIRROR TOP No. K-2677

● A neat modern fixture of Harewood Marlite with decorative horizontal strips of trim moulding. Takolene shelf full length, 13½ inches in depth over all. Plate glass mirror 38 inches in diameter. Cabinets are of gumwood with figured front and equipped with drawer and storage compartment with chrome plated hardware. These tops may be had with cabinets under mirrors as illustrated or between mirrors as shown above.

Marlite in beautiful wood grains or fine marble reproductions as listed on page 2 may be used on this top.

DIMENSIONS — Height over all with shelf at 40 inches from floor, 6 feet 2 inches. Depth over all, 13½ inches. Length, two-chair top, 10 feet 8 inches; three-chair top, 15 feet 4 inches. Each additional section, length, 4 feet 8 inches.

KOCHS' MIRROR CASE No. K-2928

● Modern in design and suitable for any shop. The wainscoting and panel beside the mirrors are of Verde Antique Marlite; the panels behind the lights are of Prima Vera wood veneer and Prestwood.

DELUXE UTILITY CABINET
No. K-1998

● Figured gumwood with rounded corners and recessed Takolene base. Equipped with drawer, sterilizer, clean and soiled towel compartments. Height, 48 inches; width, 17 inches; depth, 12 inches. Fitted with finest type modern chrome plated hardware.

Basin Units

BOOTH UNIT No. K-2581

● A very popular model. Wainscot extends 8 inches from wall, thus allowing room for plumbing. Cabinets contain two drawers, clean towel compartment and soiled towel compartment with metal container. Wainscot and cabinet sides covered with walnut colored and walnut grained waterproof material. Cabinet tops and hinged cover over china lavatory of black Formica. Shampoo hose and spray connect through wainscot. Hot and cold water handles on cabinet work. Center mirror, size 20 by 34 inches. Side mirrors each 10 by 30 inches. The side mirrors are mounted on wood doors which give access to cabinets behind them. These mirrors are attractively decorated and a part remains unsilvered, thus becoming a small display case. Double electric outlet. Black Takolene base. Height over all, 74 inches. Width, 72 inches. Depth of wainscot, 8 inches. Depth of cabinets, 12 inches. Depth of lavatory, 20 inches. Projection from wall, over all, 28 inches.

BOOTH UNIT No. K-1251

● A complete booth fixture — provides ample storage space for sundries, towels, etc. Also sterilizer and a large galvanized hamper for soiled linens. Made of beautifully figured Hazelwood in natural finish with walnut stained trim. Base is of black rubber. Wainscoting, cabinet tops and sides next to lavatory are covered with black Formica. Shampoo bowl shown is our No. 455, made of iron, porcelain enameled. This bowl is priced separately. Booth unit may be had in lacquer finish in any of our standard colors. Width, 60 inches. Height, 70 inches. Depth, 16 inches. Mirror, 24 by 30 inches.

No. K-1251-C

Same as above but with hinged cover over the lavatory.

PATENT OFFICE

MAY 22 1941

No. K-1253 UTILITY UNIT

● Cabinets of Hazelwood natural finish with tops and edges of black Formica.

Top shelf as well as panel and the cabinet sides which face each other are covered with brown Takolene.

There is a 6 inch space behind the panel for plumbing.

Base is covered with 4 inch black and white mottled rubber.

Ample storage space is provided in both cabinets. The cabinet on the left has one drawer and two separate compartments in which to store supplies. The cabinet on the right has a sterilizer compartment and a space for clean linen, as well as a soiled linen compartment, which is equipped with a galvanized iron container.

Width of shelf on which mirror is attached is 6 inches, covered with brown Takolene and bound with a metal band.

This unit is made for basin No. 531 which is shown on unit No. K-2228 on this page.

Shampoo bowls and cover for basin priced separately.

Height, 70 inches; width, 52 inches; depth, 18 inches.

Top of cabinet 32 inches from the floor.

Plate glass circle mirror 28 inches.

Booth Units

No. K-2228 BOOTH UNIT

● Made of figured Hazelwood natural finish, with trimming of walnut stain. The shelf, base, space behind lavatory, and the side of cabinet facing each other are all covered with black Formica.

Height to top of cabinet, 38 inches.

Size of cabinet 12 by 16 inches, the cabinet top is 18 by 18 inches so as to allow ample space behind fixture for waste and supply pipes.

The lavatory shown is our No. 531 and is priced separate.

Plate Glass Mirror is 24 by 28 inches.

Width overall, 58 inches.

Booth Units

No. K-2229 BOOTH UNIT

● Made of natural finished figured Hazelwood, trimmed with walnut stain.

Height of shelf, 38 inches.

Cabinets are 12 inches deep, 16 inches wide.

Shelves on top of cabinets are 18 by 18 inches, and covered with black Formica.

The lid over lavatory is covered on both sides and all edges with black Formica.

By making the shelf wider than the cabinet, we allow ample space behind the cabinet for both the waste and supply pipes.

Plate Glass Mirror is 24 by 28 inches.

Space behind lavatory and the sides of cabinet facing each other are covered with black Formica. One compartment is fitted with metal hamper for soiled linen.

Width overall, 58 inches.

The left hand cabinet has a drawer and ample storage space, while the right hand cabinet is equipped with sterilizer compartment; also galvanized hamper for soiled linen.

No. K-1252 UTILITY UNIT

● The cabinets and mirror frame are made of Hazelwood natural finish.

Back panel and cabinet sides which face each other are covered with brown Takolene. The base is covered with 4 inch black and white mottled rubber.

Cabinet tops and edges are covered with black Formica.

The left hand cabinet has a drawer and ample storage space, while the right hand cabinet is equipped with sterilizer compartment; also galvanized hamper for soiled linen.

Directly under mirror is a Takolene covered shelf 6 inches wide with stainless steel band.

This unit can be equipped with any of our shampoo basins shown on page 69. We can also furnish a hinged cover, if used with shampoo basin.

Shampoo bowls and cover for basin priced separately.

Height, 71 inches; width, 60 inches; depth, 18 inches.

Plate glass mirror 22 by 28 inches.

Height to top of cabinets 38 inches.

Reception Room Furniture

ASSEMBLY No. K-2288

Can be had in units of 2-3-4-5 or 6 seats. These assemblies are rigid and comfortable. The seats have "No-Sag Springs" and the backs are 9 inches high and are heavily padded.

Seats are 18 inches wide and 18 inches deep. A two unit assembly is 39 inches in width and 21 inches in depth overall. Each extra section is 19 inches wide.

CHAIR No. K-2287

Made of steel tubing chrome plated with seat fitted with "No-Sag Springs." Form fitting back 9 inches high — well padded.

ASSEMBLY No. K-2289

This assembly is a combination of our No. K-1409 chairs and may be had in units of 2-3-4-5 or 6 chairs. Seats have "No-Sag Springs" and measure 18 inches wide and 19 inches deep. Backs are heavily padded, unusually high and comfortable.

A two unit assembly is 39 inches wide and 25 inches in depth overall. Each extra section is 19 inches wide.

SETTEE No. K-2285

● For a practical Settee, distinctive in design, elegant in its general make-up, and smart in finish, here is an item that should appeal to the discriminating shop owner. Frame of Hazelwood, natural finish. No-sag springs in seat and back. Roomy and comfortable. Size over all 30 inches high, 43 inches wide, 28 inches front to rear. Seat and back can be covered with two different colors of textiles or genuine leathers. For complete satisfaction we recommend genuine leathers.

CHAIR No. K-2286

● A somewhat smaller chair than the one opposite, yet it has comfort and the same smartness of design. Specially adapted to Reception Room where space is at a premium. Made of Hazelwood natural finish; can also be furnished in any of our other standard colors of lacquers. No-sag spring seat and upholstered back. Covered in textile or genuine leathers, as desired.

CHAIR No. K-2284

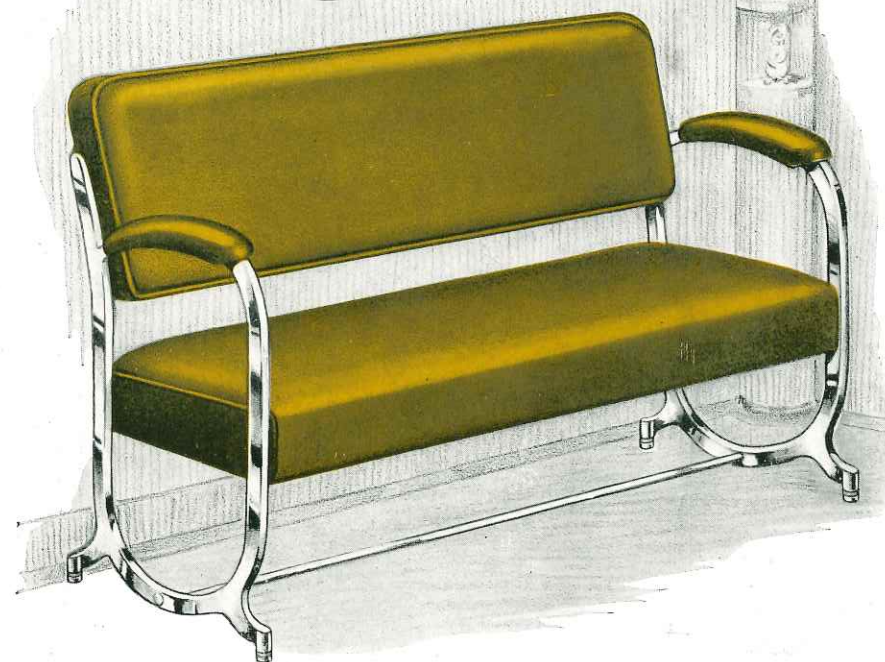

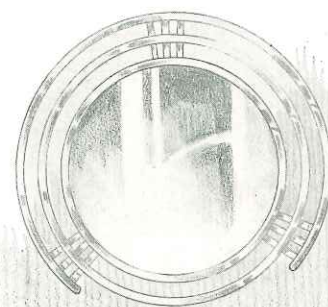

● Large comfortable chair, a fit companion to the No. K-2285 Settee shown above. It embodies all the distinctive features of the Settee and it can also be upholstered in two different colors of textiles or genuine leathers. This chair will enhance the appearance of any Reception Room.

Seat and back fitted with no-sag springs. Frame of Hazelwood natural finish. Size over all 30 inches high, 22 inches wide, 28 inches front to rear.

Reception Room Furniture

Kochs' Reception Room Furniture

CHAIR NO. K-2408

A streamline design at a low price. Flex-spring upholstered seat. Comfortably padded 8 inch back. Height over all, 33 inches.

Kochs' Reception Room Front No. K-2380

● Here is an altogether new idea in a modern reception room front. It is substantially built of wood and covered with Takoloid leatherette, which may be had in solid colors or combinations of various colors, as the color scheme of the shop may require. Base is always furnished in black. Unless otherwise specified top molding is also furnished in black, but it may be had in any of our natural wood finishes or solid lacquer colors at no extra charge. Moldings between the various sections are of chrome plated metal. One side of this front is

furnished with mirror, size 24 by 48 inches, other side is fitted with showing and yet sells at a very reasonable price. It may be had covered with any of our Takoloid leatherettes listed on page 2 of this book. Illustration shows fixture in two tone green.

Kochs' Booths No. K-2573

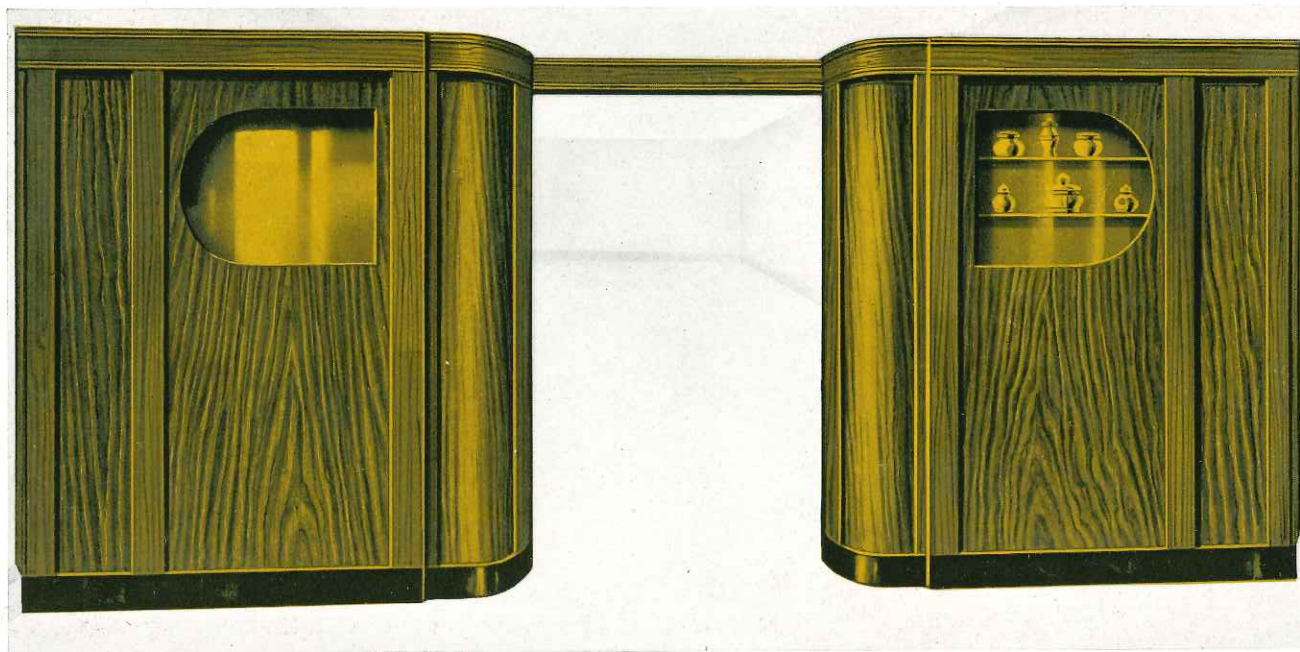

● An excellent and unusual design, when it is not desired to build partition work to the floor. Affords privacy, it is good looking, substantially built in a typical Kochs manner. It is very practical and will improve the appearance of any shop. The front consists of posts and a cap into which panels of variable width are fitted. The trim consists of wood moldings. The posts are fitted with chrome plated metal shoes. The dividers are four feet high, standard length is seven feet and these also are trimmed with wood moldings. Divider panels furnished with wall cleats.

Available in various colors of natural finish, showing the grain of the wood, also in many colors of solid lacquer finishes at the same price. (See page 2 for list of colors and finishes.) The trim color is optional, any of the solid lacquer shades may be used; unless otherwise specified, black trim will always be furnished. Illustration shows this fixture in a combination of hazelwood and black. These booths, like all others in the Kochs' line, are made sectional and any number of them to fit any size room can be furnished. Special sizes to fit odd sized rooms are made to order.

Reception Room Fronts

● A new, distinctive Kochs booth front, economically priced, constructed of natural finished hazelwood — beautiful graining. The moldings are furnished in a walnut stained finish. The base of the panels and the posts are covered with black rubber 4 inches high. The display compartment is fitted with two plate glass shelves. A beautiful front that will lend distinction to any beauty shop.

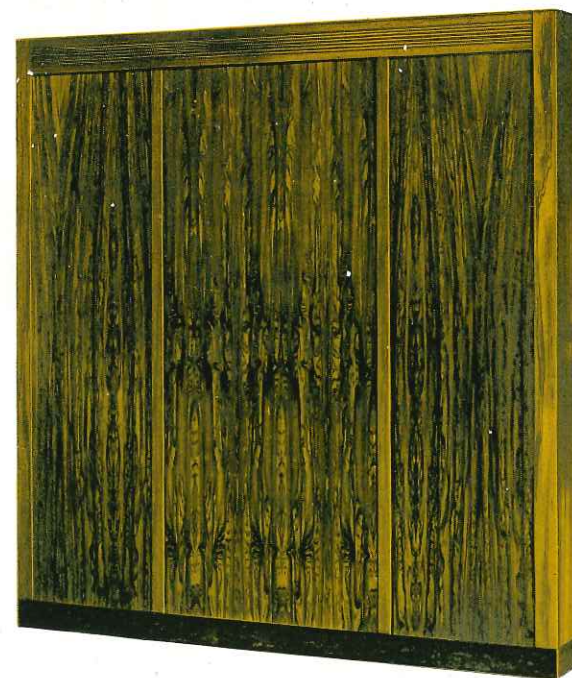

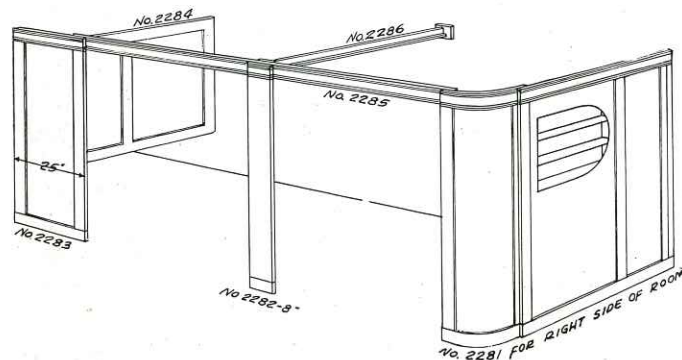

No. K-2280
FRONT WITH PLATE MIRROR (left)

● This attractive front may be purchased complete, as illustrated above, or one side only, if preferred. Although this is not a sectional unit, it may be had in any size desired. The curved corners on the front panels enhance the appearance of this front. The standard size is 6 feet 6 inches wide and 6 feet 8 inches high. The bridge can be furnished in any length, to conform with the width of the room.

No. K-2281
FRONT WITH DISPLAY CASE (right)

Drawing at left shows one style of installation for the reception room front and also indicates how the booth work may be installed. Many other attractive installations can be worked out. Our architectural designing department is at your disposal and we will gladly give you suggestions for the most practical installation for your shop on request.

No. K-2301
RECEPTION ROOM FRONT

● An inexpensive front that will appeal to beauticians for its simplicity and graceful appearance — 11 inches wide at end, 80 inches high, 6 feet 6 inches wide.

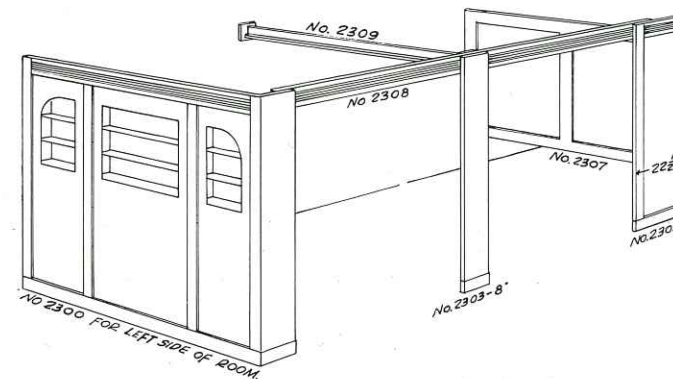

No. K-2300
RECEPTION ROOM FRONT

● An unusual value — fitted with open type display case having two crystal plate glass shelves — 11 inches wide at end — 6 feet 6 inches wide, 80 inches high.

No. K-2307 BOOTH DIVIDER

● An attractive partition made of hazelwood, natural finish, 48 inches high, 70 inches deep.

Arrange your shop as you would like it, and order the parts required using the numbers shown above.

No. K-2303
POST

● Made of hazelwood natural finish. Base covered on all sides with mottled black rubber, 8 inches wide, 80 inches high.

No. K-2304
12-INCH POST

Same as above, but 12 inches wide, 80 inches high.

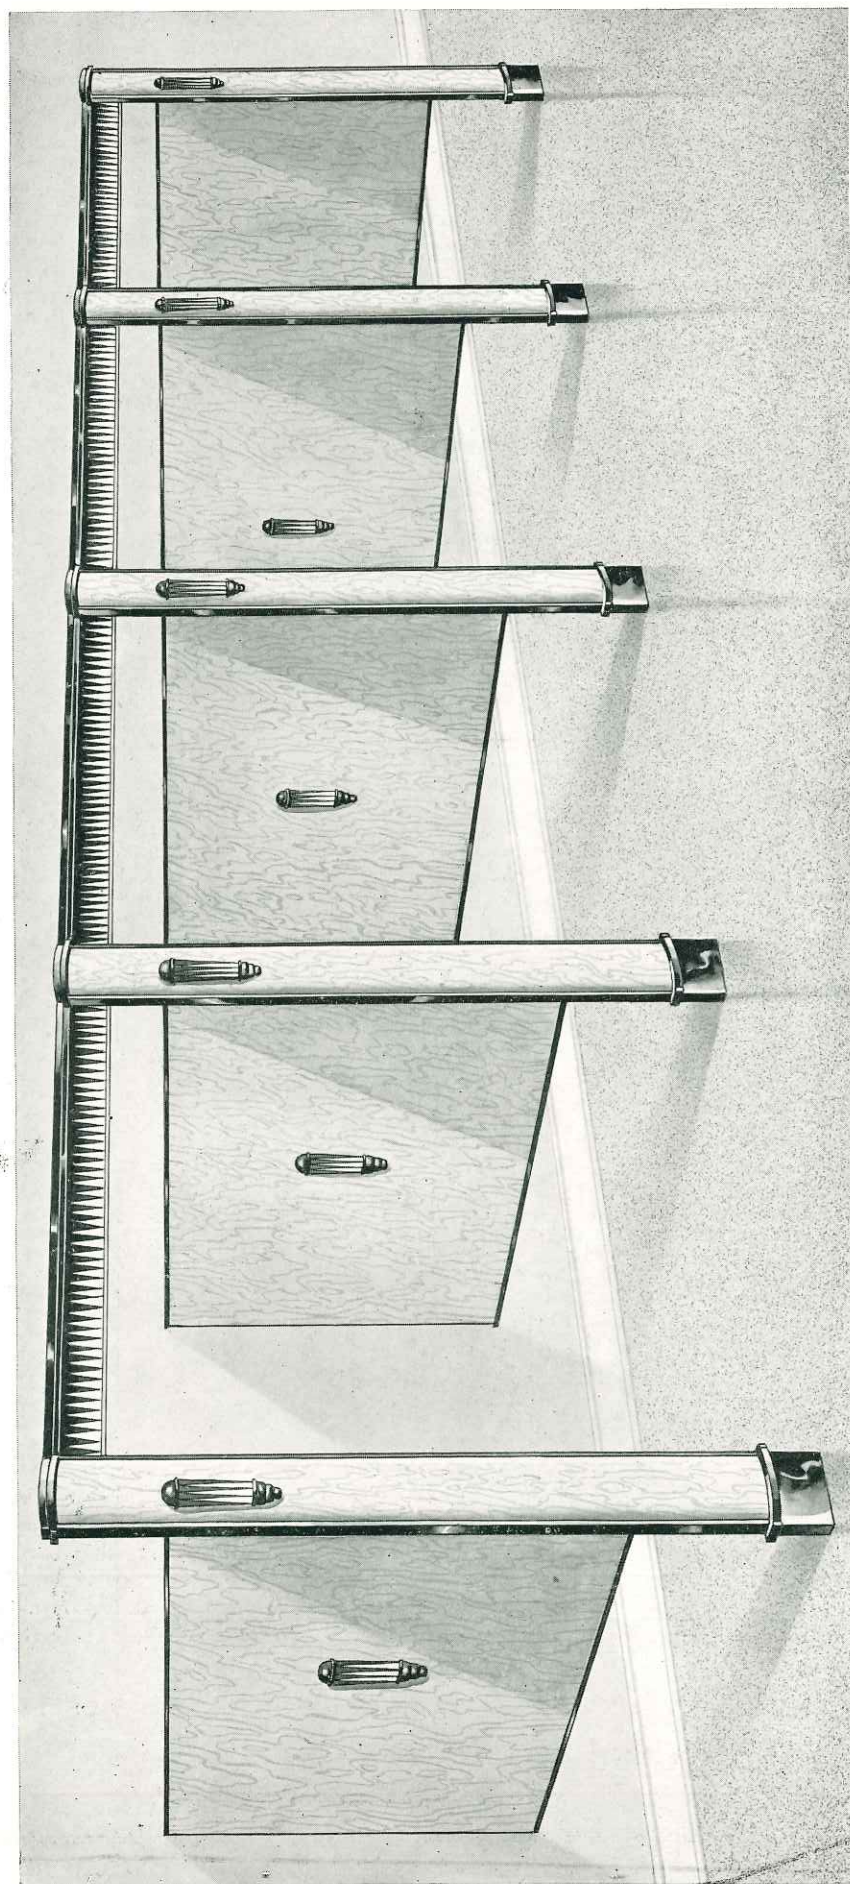

No. K-2305
PANELS

● This panel is 22½ inches wide — it is made of hazelwood natural finish and is 80 inches high. The base is covered on both sides with mottled black rubber.

No. K-2303

No. K-2305

Kochs' Booths No. K-2534

● This arrangement will appeal to beauticians who prefer open, airy booths affording semi-privacy to their clients. The front posts are well built of finest cabinet wood, are curved in front and mounted on 6-inch black bases. A decorative design enhances their appearance. Arches, 6 inches in width, also decorated and capped with heavy moldings, connect the posts on top; the base of the post is fastened directly to the floor. The panels, which divide the booths, are 4 feet high and decorated with the same design as the front posts. A simple but pleasing fixture reflecting good taste.

This fixture may be had in Maple or Hazelwood natural finish or any of our standard colors of lacquer, listed on page 2. Standard trim color is black, but other solid lacquer finishes may be specified.

Be sure to contact your Kochs' dealer when you think of remodeling or rebuilding. He is trained to help you with your problems and he has at his disposal Kochs' Architectural Department with its many experts in beauty shop construction.

Kochs' Hydraulic Beauty Shop Chair

No. K-2100

- RAISING
- LOWERING
- REVOLVING
- RECLINING

● This chair is without a doubt the most beautiful, the most perfect and the most luxurious piece of equipment it is possible to produce. It is suited to *every kind* of beauty work and equally practical for hair trimming, shampooing, permanent waving, eyebrow arching, dyeing and facials. It is equipped with a hydraulic pump, by means of which the chair may be raised 5½ inches. The base is ornamental, strong and practical, built of steel and is enameled in solid colors or color combinations as

preferred. All bright parts chrome plated. Soft and luxurious upholstery of genuine leather makes it comfortable for patrons and the possibility of adjusting its height makes work easy for tall or short operators. The apron or leg rest is fully upholstered and the footstep is covered with linoleum. The chair can be fully reclined so as to form a continuous surface from headrest to footstep and may thus be used as a facial couch. Height of seat from floor at lowest point, 21 inches.

Smart appearance, beautiful colors, gleaming chromium finish and practicability set this chair apart as

"THE MASTERPIECE"

Hydraulic Beauty Shop Chairs

● Hydraulic chairs are preferred by many shop owners because they are suited to every kind of beauty shop work and because the height of the chair can be adjusted to suit individual convenience. The two models illustrated are different only in the base, one having a porcelain enameled base (choice of colors) while the other is equipped with an all chrome-plated base. These chairs are comfortably upholstered in genuine leather and fitted with adjustable headrest which may be removed for insertion of shampoo boards. Beauty of design, substantial construction, careful workmanship and long life make them a prudent investment.

No. K-51

No. K-60

Porcelain enameled iron base, 20½ inches in diameter. Genuine leather upholstery over soft spring construction. "Tear drop" arms. Chrome plated metal band around cut-out back. Headrest adjustable to various positions. Padded apron. Linoleum covered self adjusting footstep. All bright parts chrome plated. Height of seat from floor at lowest point, 21 inches. Raising range 5½ inches.

No. K-61

Exactly like No. 60 described above, except that the entire chair, including base, housing, elbow and lever is chrome plated.

COLOR

Both chairs are shown upholstered with brown levant grain genuine leather. The base of No. 60 is desert tan enamel. Can be had in all our standard colors listed on page 2.

Kochs' Utility Chairs

No. K-2002

● A utility chair suited to all types of work for those shops who prefer stationary equipment. Matches the other numbers in the line, revolves and reclines to any angle desired by means of a control mechanism with two handles, one on each side of the chair. Base enameled in any of our standard colors and fitted with chrome plated base rim. All other visible iron castings are Chrome plated. Spring upholstered seat, 19 inches from floor. Comfortable cut-out back with adjustable headrest. Modern "tear drop" arms, padded apron and linoleum covered, self adjusting footstep equipped with casters to eliminate tipping. Genuine leather upholstery, choice of colors. A smart chair, for the smart shop. Equipped with "Positive Action" reclining mechanism.

FACIAL CHAIR No. K-899

● This extremely comfortable chair serves practically the same purpose as the more expensive hydraulic chairs, with the exception that it cannot be raised or lowered. The chair can easily be moved about, since it is mounted on smooth rolling casters.

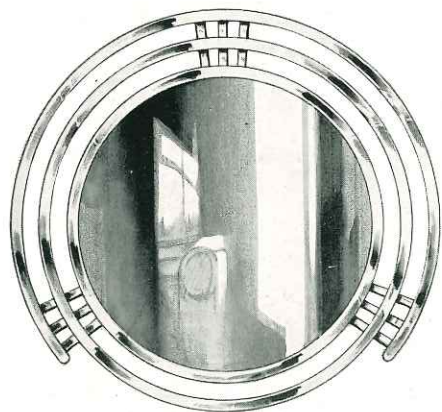

The chair is reclined by pressure of a foot-lever on the back. It lays out horizontal — forming a continuous flat surface. It is upholstered with Takolene, in any of the colors as mentioned on page 2.

The frame is of hard wood, finished in any of our standard colors. The upholstery is of spring construction with well padded back.

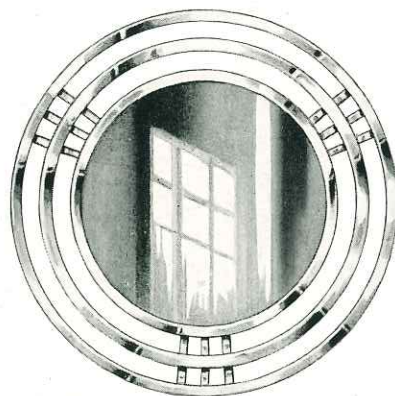

Mirrors

● Kochs' Mirrors are made of the finest quality plate glass available. They are clear of flaws, expertly silvered.

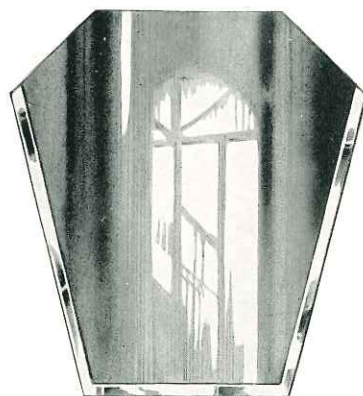

MIRROR No. K-2109

Chrome plated frame, very artistically designed. Diameter of plate glass mirror, 30 inches. Diameter of largest ring, 43½ inches. Will add to the appearance of any room.

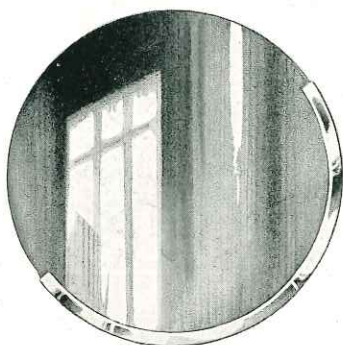

MIRROR No. K-2111

Unusual in appearance. Diameter of plate glass mirror, 24 inches. Diameter of largest ring, 37 inches. Frame made of chrome plated oval steel tubing. A popular model.

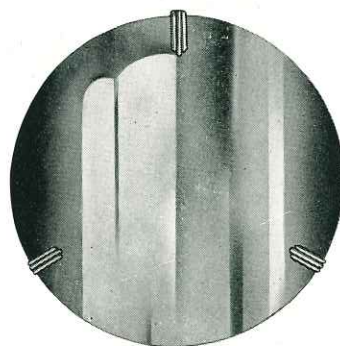

MIRROR No. K-2115

Hexagon shaped and preferred by many hairdressers on account of its height. Fine plate glass mirror, 24 by 30 inches.

MIRROR No. K-2057

An always popular style. Chrome plated half frame. Plate glass mirror, 24 inch diameter.

MIRROR No. K-2255

Circular plate glass mirror mounted on ⅝-inch 5-ply fir back. Size 24 inches in diameter. Furnished with 3 decorative chrome plated clips.

Kochs' Sterilizing Cabinets

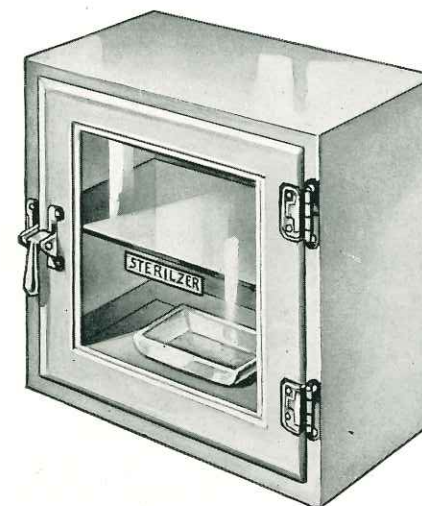

No. K-8214

● Heavy glass cabinet with chromium plated door frames and latch. Furnished with glass dish for sterilizing fluid and two wire mesh shelves. Equipped with four rubber studs to prevent shifting. Height, 9¾ inches; width, 7¼ inches; depth, 10½ inches.

STERILIZING CABINET No. K-1563

● Substantially made and completely framed with polished german silver. Front and sides of drawer white enameled. Glass knobs. Chrome plated hinges and lock. Glass sides and door. Three plate glass shelves. 5/16 inch thick white glass top. Receptacle furnished for sterilizing fluid. Height, 24½ inches; width, 14½ inches; depth, 11¼ inches.

No. K-8760

● A well made wooden cabinet with bright chromium plated hardware. Furnished with two glass shelves and dish for sterilizing fluid. Regularly finished in white lacquer, but available in any other standard lacquer color listed on page 2 at a slight additional charge. Height, 13 inches; width, 13 inches; depth, 7 inches.

No. K-8888

● A very pleasing design in an excellently constructed wooden cabinet. Equipped with bright chromium plated hardware. Furnished with two glass shelves and dish for sterilizing agent. Available in any standard lacquer color listed on page 2. Base and front edging always finished in black lacquer. Height, 14 inches; width, 13¼ inches; depth, 7 inches.

Kochs' Sterilunit* Cabinets

● Specially designed cabinets for sterile storage of tools, towels and accessories in beauty parlors and barber shops. Equipped with the Westinghouse Sterilamp* which destroys bacteria. Cabinets are fitted with an automatic switch that shuts off light when door is opened. The Westinghouse method of bacterial control is used in hospital operating rooms, large refrigerating plants, modern bakeries, etc., where clean air is essential. Westinghouse Sterilamps are also used in the sanitization of drinking glasses and cooking utensils.

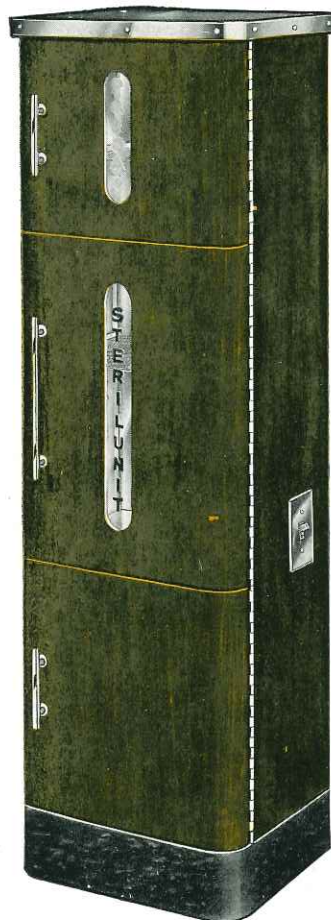

*Trade Mark Registered U. S. Patent Office

STERILE STORAGE

It is recommended that all tools, towels, etc., be thoroughly cleaned, by washing in boiling water or antiseptic solutions, before being placed in the cabinet.

It is a known fact that the air contains all forms of contamination, but if your instruments are sterile when placed in the cabinet, they will remain so — as the rays generated by the lamp have shown an unusual percentage of kill in every test made.

Made of Walnut, natural finish, or may be had of Maple, natural finish. The inside is aluminum paint finish.

No. K-1818

53 inches high, 17 inches wide,
12½ inches deep.

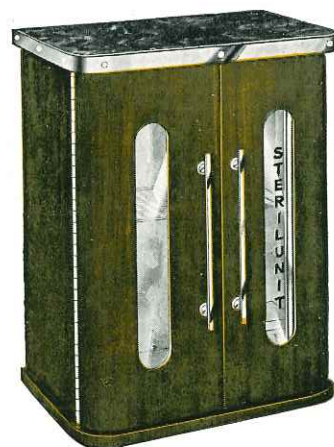

No. K-1820

12 inches high, 17 inches wide,
8 inches deep.

This cabinet does not have the automatic switch.

No. K-1819 Open View

No. K-1819

21¾ inches high, 17 inches wide,
12½ inches deep.

Kochs' All-Purpose Chairs

UTILITY CHAIR No. K-1258

Revolving — Reclining — Raising — Lowering

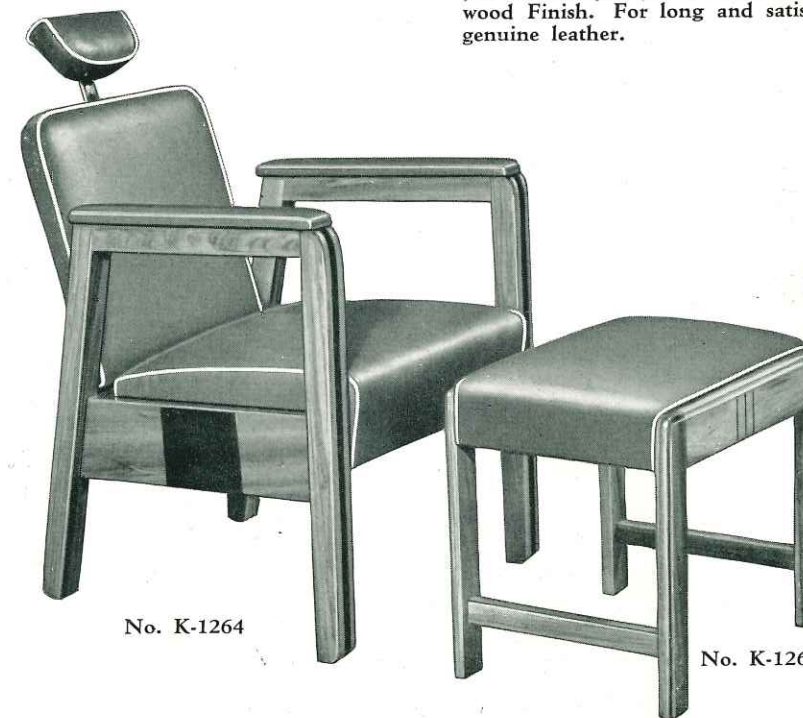

● With soft coil spring seat and well padded back and arms — upholstered with textile or leather. Frame is made of Hazelwood natural finish.

CHAIR No. K-1259

Revolving — Raising — Lowering

● A distinctive chair which is individualistic, modern in appearance and practical. Softly padded back and arms with a roomy, spring filled seat insure the utmost in comfort to your trade. Strongly constructed base made of Birch in Hazelwood Finish. For long and satisfying service we recommend genuine leather.

No. K-1264

No. K-1265

FACIAL UNIT CHAIR AND OTTOMAN

No. K-1263

● Hazelwood natural finish — chair seat 19 by 19 inches. Ottoman 14 by 19 inches, 18 inches high. Seats of both fitted with no-sag springs.

Kochs' All-Purpose Chairs

CHAIR No. K-1256

Raises — Lowers — Revolves — Reclines

● Frame of Gumwood natural finish — may be had in any of our standard colors of lacquer. Seat is spring filled, back and arms well padded, covered with textile or leather.

RECLINING CHAIR No. K-1254

● Made of gumwood natural finish, or may be had in any of our standard colors of lacquer. Seat and back of inner coil spring construction. Covered with textile or leather.

SHAMPOO CHAIR No. K-1276

Automatic

● This chair reclines automatically when the customer leans back—the seat moves forward as the back goes down. Made especially for use with shampoo bowl where customer rests neck on edge of bowl. Size and shape of both seat and back are proportioned to give customer greatest comfort. Upholstered with springs in seat and covered with any of our standard colors of textile or genuine leather.

SHAMPOO OR FACIAL CHAIR
No. K-1257

● A light but sturdy chair, constructed of Gumwood in natural finish. Reclining back. Shampoo board can be used in place of headrest. Padded seat and back, covered with textile or genuine leather in any standard color.

Kochs' All-Purpose Chairs

SHAMPOO UNIT

● A combination unit that is a real value. If the footstool is used with the chair, the unit makes an ideal facial couch. Back, headrest and arms of chair are well padded. Headrest is on a steel slat and may be extended 4½ inches. Back is tilt-back type, making it easier for the operator when working on a customer. Legs are equipped with gliders. Height from floor to top of back, 35½ inches. Back, 16½ inches high by 16 inches wide. Seat, 22½ by 20 inches. Stool has tilted, rubber-covered foot rest; comfortably padded top, and rubber tips on legs to prevent slipping. Metal tubing on both pieces is chrome plated. Both chair and stool upholstered in Takoloid in choice of colors listed on page 2. Has welts on seat and back in harmonizing color. Flex-spring seat.

No. K-2463

No. K-2465

REVOLVING CHAIR No. K-1416

● Steel tube chrome plated. Adjustable for height. Seat upholstered with springs. Seat 19 inches in diameter. Height of seat at lowest point 17 inches; raises 6 inches.

REVOLVING CHAIR No. K-1417

● Mounted on casters. Seat 19 inches wide. Upholstered with springs. Raises from 17 to 24 inches. Frame of steel tube chrome plated.

Facial Couch and Utility Chairs

FACIAL COUCH

No. K-2472

● Round tubing framework equipped with gliders, soft spring upholstery. Cut-out back with adjustable head-rest and reclining mechanism.

Height of seat from floor 17 inches. Size of ottoman 21 by 21 inches, length over-all with back upright 46 inches, with back fully reclined 60 inches. Chrome plated.

OTTOMAN No. K-2474

CHAIR No. K-2473

REVOLVING CHAIR No. K-1418

● Seat upholstered with springs. Width of seat, 18½ inches. Raises from 17 to 24 inches. Frame of chrome plated steel tubing.

RECLINING CHAIR No. K-1419

● Padded seat, back and arms. Height to top of seat 19 inches. Back reclines to any angle. Chrome plated steel tubing.

Facial Couch and Utility Chairs

CHAIR No. K-1406

Raises — Revolves — Lowers — Reclines

● A chair of simple design and sturdy construction, suitable for all kinds of work. Has a comfortable padded back and spring construction seat. Back reclines to any angle. Seat 17 inches from floor at lowest point. Raises 6 inches by turning. Base and arms of heavy steel tubing fully chromium plated.

Kochs' Utility Chair

Revolves — Reclines — Raises — Lowers

No. K-1405
UPRIGHT

No. K-1405
RECLINING

UTILITY CHAIR No. K-1405

● This chair is destined to be one of the most popular hair-dressing chairs. It is ideal for the operator as it can be placed in most any position.

The frame is made of heavy steel tubing, chromium plated.

Heavily upholstered back and arms with spring construction seat for greater comfort.

The reclining mechanism is controlled by a lock on the back.

The height of the seat — 17 inches at the lowest point, and 23 inches when fully raised.

This type of chair is suitable for all beauty work. It is just as convenient for shampooing, eye-brow arching, facials, hair-dressing or any other work.

It is well balanced and will not tip.

The illustration shows the chair covered in a two-tone upholstery. This can be had in any of our standard colors, if desired.

The illustration shows it with lighter panels on the sides of seat, back and arms. Any contrasting colors might be used.

We recommend genuine leather for longer wear.

Kochs' Manicure Tables

HIGH BACK CHAIR No. K-1988 MANICURE TABLE No. K-1989 LOW BACK CHAIR No. K-1987

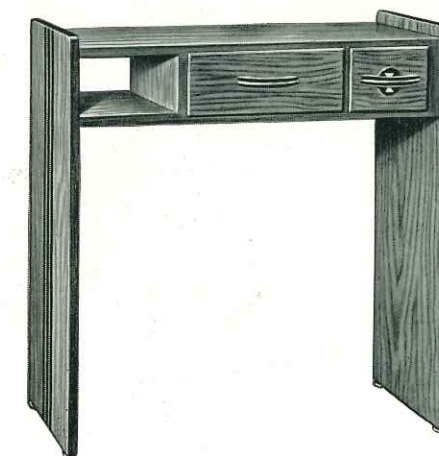

MANICURE SET No. K-1990

● Made of fine figured Gumwood with a beautiful hazelwood finish so popular nowadays. The table is substantially constructed and fitted with tool and sterilizer drawer and has a black Takolene top and ornamental guard rails. The set consists of a low back chair for the operator, a high back chair for the customer and table as illustrated. The chair seats are nicely padded and covered with a fine imitation leather. May be had as a complete set or each item separately.

ALL WOOD MANICURE TABLE No. K-2234

● Streamlined throughout with figured gumwood sides and chrome plated stretcher rod. Fitted with Formica top, 13 by 26 inches. Size of table over all, 13 by 29 inches. Equipped with two large drawers, one of which has sliding glass top and may be used as a sterilizer. Modernistic wood drawer pulls.
